Global Learning and Observation to Benefit the Environment

GLOBE Workshop for STEM Teachers

Key Speaker, Dr. Peter Eley
Associate Professor, Fayetteville State University

The Global Learning and Observation to Benefit the Environment (GLOBE) program is a worldwide hands-on, primary, and secondary school-based science and education program.

Open to K-12 STEM Teachers

February 22, 2019, 5:00-8:00 pm

February 23, 2019, 9-4:30 pm

Room 229, Dixon-Patterson Hall

Elizabeth City State University

CERSER

1704 Weeksville Road, Box 672

Elizabeth City, NC 27909

Phone (252) 335-3977

Fax (252) 335-3790

The Global Learning and Observations to Benefit the Environment (GLOBE) Program is an international science and education program that provides students and the public worldwide with the opportunity to participate in data collection and the scientific process, and contribute meaningfully to our understanding of the Earth system and global environment. Announced by the U.S. Government on Earth Day in 1994, GLOBE launched its worldwide implementation in 1995.

Vision: A worldwide community of students, teachers, scientists, and citizens working together to better understand, sustain, and improve Earth's environment at local, regional, and global scales.

Mission: To promote the teaching and learning of science, enhance environmental literacy and stewardship, and promote scientific discovery.

The **GLOBE** Program
