This letter is to certify that the ECSU IRB has approved the above referenced protocol via an expedited review process. Research proposals with expedited or full review are subject to IRB audits, continuing review, or request for project closure. Any change to the protocol including number of participants, study personnel or site requires the primary investigator to resubmit a revised application to the ECSU IRB for approval. You are advised to apply for continuing review thirty days before the anniversary date (July 19, 2013).

It is the principal investigator's responsibility to ensure that all individuals involved in the research adhere to ECSU policies and procedures for research with human participants including CITI Program certification. In addition, the principal investigator must notify the ECSU IRB if any changes are made to the original protocol or any unanticipated problems occur.
