

Your name: Nia Blake

Your institution: WSSU

Please insert a photo of yourself (preferably in action during your internship, but not required)

1. Tell us a little bit about yourself, including what you are studying.

I am a rising senior attending Winston-Salem State University (WSSU), majoring in computer science. I love the strategizing and problem solving that comes with computer science. In this field you are constantly looking for ways to improve the task. I enjoy hanging out with friends and family as well as outdoor adventuring. I am always down to have a good time with positive people.

2. Where did your internship take place, and who did you work with?

My internship took place this summer at the sgci program here at elizabeth city. I worked with many great people including Linda hayden and Leandria gates

3. What are some things that you learned as a result of this internship?

I have learned more about python which i had no knowledge about before. I have downloaded a tool where i can code in python. I have also gain knowledge about other programming tools such as hpc.

4. Do you see yourself engaging with SGCI again in the future? Perhaps when you begin your career?

Yes, based on experience this summer i can definitely see myself participating and engaging with the program again

5. Anything else to add about your internship experience?

This internship has been wonderful to me, it has allowed me to expand my knowledge and gain new resources that i can use in the future.
