

Steven Galloway II

Elizabeth City State University

1. Tell us a little bit about yourself including what you are studying.
 - a. I am a rising junior studying Computer Science with an emphasis in data at Elizabeth City State University.
2. Where did your internship take place, and who did you work with?
 - a. Since covid-19 is still around the country, I have been doing this internship virtually from home. I have been working with Dr. Hayden, multiple guest speakers and other interns from across the United States.
3. What are some things that you have learned as result of this internship?
 - a. Many of the guest speakers helped me realized on how many career opportunities I have with within Computer Science. Some of these speakers were supercomputer experts to mathematicians to medical experts.
4. Do you see yourself engaging with SGCI again in the future? Perhaps when you begin your career?
 - a. In the future, I see myself coming back and engaging with SGCI. Even coming back to SGCI when I can expand my network and knowledge within my career field.
5. Anything else to add about your internship experience?
 - a. I am fortunate enough to have this opportunity to meet with these computer scientists and engineers and my fellow computer interns within SGCI.
