Your name: Christian Thomas
Your institution:Winston Salem State Univ
Please insert a photo of yourself (preferably in action during your internship, but not required)

1. Tell us a little bit about yourself, including what you are studying.
2. -I am a rising senior studying the importance of I.T qualifying to be a data analyst

3. Where did your internship take place, and who did you work with?
   Virtually at the SGCI , Dr.Hayden and many special guest speakers from different
   companies

4. What are some things that you learned as a result of this internship?
   New devices and languages that higher level companies are looking for an I learned new
   languages such as html and Python

5. Do you see yourself engaging with SGCI again in the future? Perhaps when you begin
   your career?
   I do honestly see myself with participating with SGCI and furthering my knowledge with
   this company I love the communication within the company and connections this
   company has.

6. Anything else to add about your internship experience?
   I loved the fact that I met people from all across the world places that I never even been
   before and it's really astonishing because I love to travel .
