

CHANGE THE WORLD

Science & Engineering Careers Fair at Dulles Town Center

COSPONSORED BY CONGRESSMAN FRANK WOLF AND THE NATIONAL SCIENCE FOUNDATION
FOR MIDDLE AND HIGH SCHOOL STUDENTS, TEACHERS AND FAMILIES

Are you aware of the latest careers in science and engineering?

Come see how scientists and engineers create innovations that improve our health, address future challenges and enhance the quality of our lives. On September 27 and 28, more than 100 scientists and engineers will share interactive demonstrations of the work they do. Talk with the experts and experience hands-on activities that illustrate the wide range of careers in science and engineering.

Friday - Saturday, September 27-28, 2013

Friday: 10am - 7:00pm

Saturday: 10am - 5:00pm

Dulles Town Center Mall
21100 Dulles Town Circle
Dulles, Virginia 20166

Opening Ceremony

11:00 a.m. on Friday, September 27th

Featuring:

- Congressman Frank Wolf
- Dr. Cora Marrett, Acting Director, NSF
- Story Pirates
- Storm Chaser, Josh Wurman

Learn more at: <http://go.usa.gov/D34j>

Free and open to the public.

For middle and high school students, teachers and families

Participate in two floors of interactive demonstrations and displays that illustrate the power and potential of scientists and engineers to change the World!

- Create your own earthquake
- See a weather balloon launch
- Design and test a solar car
- Experience life in space as an astronaut
- Predict lava flow
- Be part of a robot roadshow
- Build your own roller coaster
- Try on extreme weather gear worn in Antarctica
- See how experts investigate crashes
- Meet the Science Cheerleaders
