

Personal Statement

My name is Sincere Ponton. I am a freshman at Elizabeth City State University. I was born in Roanoke Rapids, North Carolina. I have always been passionate with computers as a child growing up, and it was that same passion that drove me into the field of computer science and in 2017, I was accepted into the Center of Excellence in Remote Sensing Education and Research Program (CERSER). This program will give me the tools needed in order to succeed in the major I've chosen. My goal is to earn a Bachelor's Degree in Computer Science and then my master's degree. After I graduate I plan to get a job in the virtual reality field.
